WHY NASTY?

NASTY is a state of mind.

It challenges the norms of consumers perceptions, evoking a fearlessness in them to explore the unknown and the extreme.

And the same fearlessness drives us to stop at nothing to deliver an unbeatable consumer experience.

A feeling that makes them say “**This is NASTY!**”

OUR MISSION

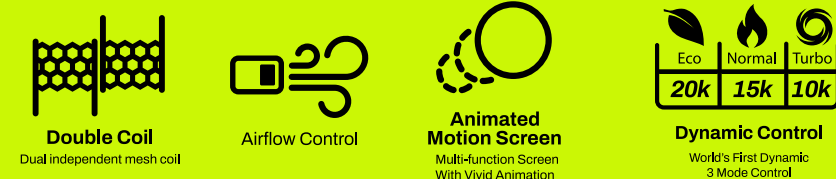

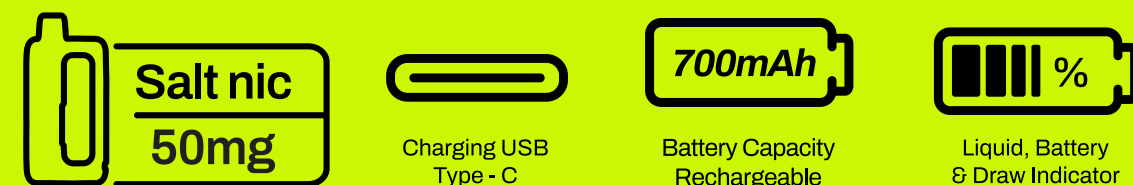

ENDS is the No.1 most popular and effective tool for smoking cessation for the 1.3 billion smokers around the world.

Since 2015, our mission has been to capture this audience with a complete **ENDS** ecosystem and unbeatable consumer experience.

At NASTY Labs, we focus on two things to set us apart from our competitors:

We craft our own unique flavours using the very best in e-liquid technology and insights from our global consumer base and regulations worldwide.

We design our own devices, packaging and in-store marketing support using our 3-step NASTY Design Philosophy for conversion, retention and loyalty.

1

Lure

First purchase triggered by fresh, attractive and engaging designs, packaging and display. Basically, a product that sells itself on the shelf.

2

Hook

Second purchase triggered by unbeatable flavour experience and satisfaction, something memorable that they've never had before.

3

Capture

Third purchase onwards relies on quality: consistent performance to the very last drop, every single time, in every NASTY product.

TOBACCO HARM REDUCTION

Vaping has been around since the early 1980s. In the beginning it developed a niche following of consumers and was mostly for recreational use, never reaching the masses.

Vaping in the past was without a purpose.

The introduction of salt nicotine e-liquids in 2015 changed the industry forever. This new potent type of nicotine gave smokers a viable alternative that was **95%** less harmful than cigarettes according to the Royal College of Physicians UK.

Electronic Nicotine Delivery Systems (ENDS)

NASTY develops and manufactures a complete ENDS ecosystem aimed at adult smoking cessation.

ENDS

55%

Efficacy Rate

- Up to 55% efficacy for long-term smoking cessation at 5% concentration.
- Closely mimics the habits of smokers with the additional advantage of flavour variety and on-demand convenience.
- Releases relatively harmful vapour compared to carcinogenic cigarette smoke.

NRT

10%

Efficacy Rate

- Nicotine Replacement Therapy (NRT) solutions offer a 5 to 10% efficacy rate for long-term smoking cessation.
- The application of NRTs include nicotine gum, patches, inhalers, nasal sprays, and toothpicks
- Delivers nicotine that is absorbed orally and through the skin, but does not satisfy smoker "habits"

UNASSISTED

4%

Efficacy Rate

- Without support, the World Health Organization (WHO) estimates the success rate of unassisted smoking cessation at 1 in 25.
- Safest method to quit smoking but most challenging to achieve lasting results.
- Profession counselling and medication can more than double a smoker's chances of successfully quitting.
